We'll take care of it the next time we make it. We did send some out for testing the first time we made it, way back sometime. Does Barry want us to test every single time we make it like the Gala?

Read Barry's e-mail below.
I'm not sure if he spoke to you about this, so I thought you should know.

We need to start doing some sterility testing for these products. I'm surprised that we have not yet?
